Other req	uirement	s to be sa	tisfied (see Core Curricu	ılum and Degree Information s	ections of catalo	og 128)			
Residency 36 hours o			evel course work success	sfully completed in residence at	t TAMU				
Foreign language requirement two units of the same foreign language in high school or one year in college or demonstrate proficiency by examination									
International and cultural diversity requirement 6 hrs., chosen from a list of approved courses, many of which also satisfy other core curriculum requirements									
Writing in									

NOTES

- 1. U.S. history electives to be selected from the University Core Curriculum.
- 2. Select either PHYS 201 and 202 or BIOL 111 and BOTN 101. PHYS 201 and 202 are the appropriate science electives for the climate change theme.
- 3. Social and behavioral sciences elective to be selected from the University Core Curriculum.
- 4. Visual and performing arts elective to be selected from the University Core Curriculum.
- 5. To be selected in consultation with faculty academic advisor from AGEC 350; ECON 203, 323, 412, 435; GEOG 406; PLAN 365, 414; POLS 329, 331, 340, 342, 347, 440, 456; RENR 420; SOCI 312, 328.
- 6. Select from list in consultation with faculty academic advisor (see below). Environmental themes include: coastal studies, water in the environment (air, land and ocean), human interaction with the land, and climate change. 18 hours of course work are taken in one of the thematic areas.
- 7. Select in consultation with faculty academic advisor.
- 8. Communication elective to be selected from the University Core Curriculum.
- 9. Humanities elective to be selected from the University Core Curriculum.

ENVIRONMENTAL THEMES AND ELECTIVES

Coastal Studies ATMO 463 GEOG 331 GEOG 370 GEOL 321 GEOL 440 OCNG 410 OCNG 451	Air Pollution Meteorology Geomorphology Coastal Processes Urban Geology Engineering Geology Introduction to Physical Oceanography Mathematical Modeling of Ocean Climate	Water in the Env ATMO 463 ATMO 475 GEOG 324 GEOG 400 GEOG 434 GEOL 410 GEOL 451 GEOP 413 OCNG 410 OCNG 420	Air Pollution Meteorology Radar and Mesoscale Meteorology Global Climatic Regions Arid Lands Geomorphology Hydrology and Environment Hydrogeology Introduction to Geochemistry Near-Surface Geophysics Introduction to Physical Oceanography Introduction to Biological Oceanography
Human Interaction ATMO 463 GEOG 301 GEOG 305 GEOG 311 GEOG 320 GEOG 321 GEOG 323 GEOG 325 GEOG 326 GEOG 330 GEOG 331 GEOG 330 GEOG 331 GEOG 360 GEOG 400 GEOL 320 GEOL 321 GEOL 440	Air Pollution Meteorology Geography of the United States Geography of Texas Cultural Geography The Middle East Geography of Africa Geography of Latin America Geography of Europe Geography of Europe Geography of East Asia Resources and Environment* Geomorphology Natural Hazards Arid Lands Geomorphology Geology for Civil Engineers Urban Geology Engineering Geology	Climate Change ATMO 324 ATMO 463 GEOG 324 GEOS 410 GEOS 411 OCNG 410 OCNG 451	Physical and Regional Climatology Air Pollution Meteorology Global Climatic Regions Global Change Vegetation Response to Climate Change Introduction to Physical Oceanography Mathematical Modeling of Ocean Climate

^{*} Select GEOG 201 in Earth System Science Core if choosing GEOG 330 as an environmental theme course.
